

LIFELONG
LEARNING 

MUNICH BUSINESS SCHOOL IS YOUR PARTNER FOR LIFELONG LEARNING

Certificate Courses for Individuals

In the field of Executive Education, Munich Business School (MBS) offers a broad spectrum of topics - from Finance & Controlling to International Business & Leadership to issues in the field of Digital Transformation. Executives and employees expand their personal skills and apply the newly acquired competencies in their professional area of expertise.

Customized solutions for companies

We work closely with companies in order to develop long-term solutions for sustainable HR development. The range of services in this area includes management development as well as workshops, competence modules, training trips and many other tools with which we support your employees and thus the success of your company.

MBA and DBA Programs

Part of our versatile continuing education program is an MBA General Management program, which provides in-depth knowledge of modern business management and international markets. MBS also offers an attractive program for those who want to obtain an academic degree: study in Germany and acquire a DBA degree from Sheffield Hallam University (UK). Munich Business School supports you in this process. Both programs can be completed part-time without interrupting your career.

6 reasons for your success

Tailor-made

We develop for your company individual solutions for recruiting and personnel development.

Practical

We feel at home in practice and convince with efficient concepts that fit perfectly into your corporate culture.

In partnership

The development of customized solutions are developed in close coordination with our customers.

Certified

The transfer of academic knowledge is based on the solid foundation of certified seminars and courses..

Experienced

Our lecturers are active in a wide range of entrepreneurial activities and impart proven practical knowledge.

Flexible

With flexibly configurable learning modules we impart up-to-date knowledge for a wide range of requirements and every career level.

CORPORATE RELATIONS

THE FUTURE OF THE COMPANY BEGINS WITH THE NEXT GENERATION

Employer Branding and Sponsoring

Do you want to position yourself as a potential employer among our students? We offer you various opportunities to do so. At our recruiting events, two to three different companies from a particular sector of a particular industry present themselves. Specific job vacancies can be advertised on our internal job platform. With a room or event sponsorship (e.g. graduate gala) you can put your brand in the right light.

Job Insights

With this series of events, we give companies and our students the opportunity to find out everything they need to know about the job they are applying for. Representatives from various industries describe what a typical working day is like and what qualifications and skills are required for today's working world.

Other events

With internship fairs, evening events, company lectures and visits to companies, MBS offers a lively and very well frequented platform for companies and students to get to know each other. Here, networks are established that support professional careers.

Corporate Cooperation

MBS offers cooperation partnerships ranging from start-ups to renowned companies. From services around employer branding, sponsoring and recruiting to academic partnerships, where science and practice are intertwined. Here a wide variety of cooperation models can be realized.

Business Project

In the Business Project of the Master's and MBA programs, small groups of students work on a real project on behalf of a company. While the students apply their acquired knowledge in practice, companies benefit from fresh ideas and additional, temporary manpower for a specific project.

Bachelor and master theses

Thanks to our long-standing cooperation with companies, we have the opportunity to conduct bachelor's and master's theses on future-relevant topics under practical conditions. Both parties benefit from this.
